FREELANCE & B2B PROJECTS - KEY DELIVERABLES

- **ASES ONG** – Developed a web platform for a non-profit organization: implemented role-based access, managed content, projects, users, and testimonials using Laravel & Vue.js.
- **Harnix Fundraising** – Built a fundraising platform from scratch, delivering a secure, responsive solution for donor engagement (Laravel & Vue.js/Nuxt.js).
- **KMAZAR GROUP new interface** – Designed and developed the new company interface, focusing on performance, SEO, and user experience using Next.js & Tailwind CSS.
- **MyFuelPlace (Comup)** – Maintained and enhanced a fuel station management app: fixed Flutter bugs, integrated with Laravel backend, and improved user experience for end-users.
- **Grand Public App** – Developed a YouTube video viewing and commenting app for public use, using Flutter + GetX, consuming a Laravel backend.
- **RdvImmo** – Designed and developed backend services for a real estate platform using Laravel, including property listings, user management, and data APIs.
- **TressPlus** – Developed the frontend of a mobile app using React Native, providing intuitive UI and seamless interaction with backend services.

LANGUAGES

- English
- French (natif)
- Fon (natif)

ACADEMIC EXPERIENCE

Selected Personal & School Projects

- Student App: Mobile student management (CRUD Flutter + SQFLITE).
- Ashborn Arch: Arch Linux clone with Nuxt.js & Pinia, dynamic app system.
- Rotten tomatoes : rotten tomatoes clone with nextjs to get film recommendation (rotten-ten.vercel.app)
- CarClose, Messenger, PostIt, ErixSell, Epiflix, CheckTicket – various web & mobile applications demonstrating full-stack, UI/UX, and API integration skills.

Education & Certifications

- **Bachelor's Degree in Computer Science – IFRI** (Flutter, Laravel, C/C++, Python, UI/UX, SQL, Project Management, Business)
- Certifications:
- **Epitech Coding Academy** : PHP, Laravel, Vue.js, React, Nuxt.js, Next.js, Python, Docker, REST API
- **Isheero / Datacamp**: DevOps, Data Analysis
- **Africa Tech Up Tour**: Linux, Advanced Python, Data Structures
- **Additional Programs**: ALX Software Engineer, FORCE-N, SoloLearn (SQL, C/C++, Angular)
